Completing the Diagnostic

To start the diagnostic, click on the **Start test now** button, and you will be given a series of questions. It will take about one hour to complete the diagnostic.

College Math Readiness

The first step of your study path is to complete this initial diagnostic to gain an understanding of your readiness.

Answer the questions as best you can, without study aids, in order to get the most accurate picture of your current understanding.

There is no built-in calculator for EdReady. Some exams (e.g., Accuplacer) allow the use of calculators for some problems, but not others. Use your judgment (or ask your teacher) to decide whether it is appropriate to use a calculator for some or all of this initial diagnostic.

The time of completion will vary. Expect to take at least an hour.

If you need to leave before your initial diagnostic is complete, your work will automatically be saved until your next visit to EdReady.

If you don't know something, be sure to use the **Pass** button. If you aren't sure of a question and want to come back to it, use the **Hold** button. If you need to leave the diagnostic before you finish, click **Save and close**. You will be able to finish at another time.

Read the following sentence:
The phone rang and rang.
Which revision below includes a prepositional phrase?

- The man's cell phone rang and rang, yet he ignored it.
- The phone rang and rang, but there was no answer.
- The phone rang and rang until she gave up and ended the call.
- The phone rang and rang, annoying everyone around.
