EdReady Quick Start Guide for Students

Registering with EdReady

You need an account to use EdReady, so will need to register before you can start using it.

You should see the logo for your school in the header: if you don't, you need to double-check that you're at the right URL!

To Register:

1. Click the **Get Started** button on the homepage

2. The Sign Up page will open: complete the information (First & Last Name, email address, password, and zip code)

Note: double-check your email address to make sure it is correct – this will be your EdReady username you need to log in, and is the email address that is used if you forget your password

3. Then click the **Sign Up** button

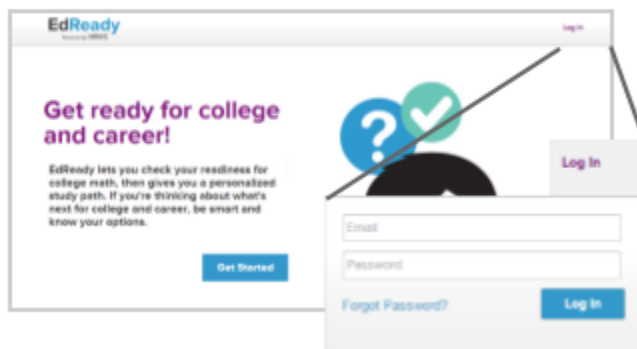

4. Check your inbox for an email confirming your EdReady account. Follow the instructions in the email to activate your account

If you don't get the email within 5 minutes, your email address may have been typed incorrectly. We suggest you try to register again. Tell your instructor right away if you're having trouble so they can reach out to EdReady Support.

5. You should see an on-screen message that your account is active. Log in and you're now ready to start using EdReady!

Logging into EdReady

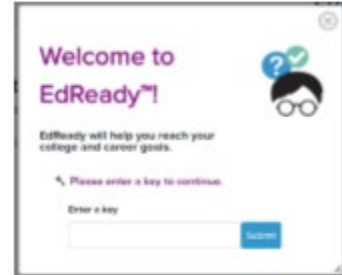

1. Log into EdReady by clicking the **Log In** link in the header

2. Enter your email and password, then click the **Log In** button

Note: If you forget your password, click the **Forgot Password?** link. You'll be asked to enter your Email Address (the one you used to register with EdReady), and a new password will be emailed to you

Goals & your Student Dashboard

The first time you log into EdReady, you'll see a pop-up window like this. If you have been given a key or password, enter it in the textbox and click the **Submit** button. The textbox will be replaced with the name of the goal you entered the password for & joined.

Enter the following key to get started on your test preparation: `accuplacer_qas`
