- A Positive Attitude.

What to Do Before a Tutoring Session

- Review the material on which you will be working.
- Read your syllabus and/or assignment.
- Take advantage of other resources:
 - i. Ask questions in class
 - ii. Ask your instructor for clarification when needed

- Plan ahead. If you wait until the last minute to seek assistance, you may not have time to benefit from tutoring.

What to Expect of Your Tutoring Session

- Your participation will be vital. Tutors can help you understand concepts, but you are responsible for your own work and learning.
- Your tutor will rely on you to select the subject matter for the tutoring session.
- Your tutor will be patient and willing to move in small, manageable units in order to help you learn concepts and skills.
- Your tutor will recognize your accomplishments and offer encouragement.
- Your tutor will give feedback during sessions based on your questions, areas of concern, and interests.
