We value the **SAFETY** and **SECURITY** of visitors to the nation’s largest energy producer. Please review the rules for visitors below prior to your visit.

**Important rules for ALL visitors:**

- You must bring government-issued photo identification — a driver's license for U.S. citizens or passport for non-U.S. citizens. Visitors between the ages of 16 and 18 should possess some form of photo identification (driver's license, learner's permit, school ID, etc.). For visitors under 16 years of age, group organizers should be able to identify them by name if asked by Security.
- You must consent to be searched by Security officers when entering the site through the main entrance. Vehicles driven by visitors must enter through Lane 3 (stay to the right) unless otherwise directed by Security personnel.
- Once you have entered the Palo Verde site, proceed to Energy Information Center (EIC) to check in. Review the emergency response information provided on the visitor badge and insert your driver's license into the sleeve. This 'badge' must be worn around your neck with your photo-ID displayed at all times on site.
- While at Palo Verde, you must comply with host instructions and public address announcements.
- Other important restrictions:
  - No firearms, weapons of any kind or personal protective devices such as pepper spray or stun guns; no explosives or ammunition. No fixed-blade knives.
  - No illegal drugs. Any prescription drugs must be in the original container with your name. Over-the-counter medications must be in the original container.
  - No alcoholic beverages — either opened or unopened — in your possession or in your vehicle. This includes empty alcohol containers.
  - No sandals or other open-toe or open-heel shoes.
  - No cameras or photography devices are to be used on site without prior approval.

**If you are entering the Security Protected Area for business purposes or tours:**

- At least 48 hours before your visit, you must provide all of the following information to the host of your visit to Palo Verde for Security screening and badging:
  - Full legal name (first, middle and last)
  - Social Security Number (or passport number for non-U.S. citizens who do not have a Social Security Number)
  - Date of birth
  - Gender
  - Citizenship
  - Address (home or business)
  - Phone Number (home or business)
  - Employer and job title
- Prior to your arrival, we must know about:
  - Any artificial joints or other metal medical implants that might alarm check-point metal detectors.
  - Any nuclear medicine treatments that involved the ingestion or injection of radioactive material in the previous 30 days.
- Minimum required attire:
  - Long pants — no shorts, skirts or other attire that exposes legs or ankles.
  - Sturdy shoes with leather uppers and closed toe and heel (no tennis shoes or sandals). Low-cut, slip-on shoes are not considered sturdy shoes.
  - Short-sleeved or long-sleeved shirt (no tank tops or sleeveless shirts).

*If you have any questions before your arrival, please contact the Energy Information Center at 623-393-5757*
